

Description

ELF MOTO DEGREASER+ is an aerosol for cleaning the motorcycle. It removes persistent dirt, including traces of brake oil, grease and dust. It is compatible with all metal parts and is particularly recommended for the degreasing of clutch as well as for the cleaning of the chain kit.

Functions

- Degreasing of the clutch system
- Cleaning of the chain kit before lubrication*
- Also removes lubricants for chain that have agglomerated too many abrasive materials
- Also applicable on other metal parts: candles, carburetor, etc.

* recommended with ELF MOTO CHAIN LUBE or ELF MOTO CHAIN PASTE

Instructions

- Spray surfaces to be treated without excess
- Use a brush if dirt is thick
- Wipe with a clean cloth (after leaving for up to 8 minutes in case of stubborn marks)

N. B. The product is not aggressive on plastic parts and is also compatible with O, X and Z-ring chains.

Benefits

- Strong degreasing power (kauri-butanol value: 90; vs. 30 for commonly available products)
- 2-in-1 product: degreaser and chain cleaner
- 97% active substance, natural compressed gas
- High pressure (5 bar) for enhanced mechanical action

- Quick drying
- Can be used in all positions
- Directional spray for targeted application
- Leaves no residue
