

Description

ELF MOTO SILICONE SPRAY is an aerosol intended for the polishing of the motorcycle and the treatment of various accessories and parts against moisture. It restores leather, protects plastic and metal parts, and gives a satin or glossy effect.

Functions

- Strong non-stick and water-repellent properties that effectively protect the plastic parts of the vehicle and the outer shell of the helmet from dirt
- Leaves a water repellent film for preventive use against corrosion on all metal parts
- Nourishes the leather and thus protects the saddle
- Reduces risk of freezing on key switch and anti-theft devices

Instructions

- Shake the spray a few moments from bottom to top
- Spray the surfaces to be treated at a distance of 15-25 cm
- Let the product to act for a few seconds
- Wipe with a soft and dry cloth

N. B. For optimum efficiency, the product must be applied on a sufficiently clean surface, which can be cleaned with ELF MOTO DEGREASER+.

Benefits

- Shine effect
 - Strong non-stick function for easy cleaning
 - 97% active substance, compressed gas of natural origin
 - Compatibility with metal, plastic and leather surfaces
-
- Dry in a few seconds
 - Can be used in all positions
 - Conical spray for wide and fast diffusion
